

EZ Way, Inc.

eZ CLASSIC Tilt Table

The EZ Classic Tilt Table provides a smooth and effortless lift from horizontal to upright position.

The EZ Classic Tilt Table is designed to make testing, rehabilitation, positioning and transferring patients easier and safer. The EZ Classic Tilt Table is a logical choice for patients who have paralysis, are bedridden or wheelchair bound who would benefit from passive standing to improve circulation or reduction of lower extremity edema.

The EZ Classic Tilt Table can be used in all environments to assist the caregiver with transferring and treatment needs. The EZ Classic Tilt Table operates on a standard 230 V or 115 V power source for smooth and silent operation.

Standard equipment includes three safety belts for comfort and security, footboard, removable wire basket and hand-operated control.

FEATURES:

The EZ Classic Tilt Table is electrically operated for smooth and silent operation. It effortlessly tilts from horizontal to a 90-degree upright position.

A hand control is provided for convenient tilt adjustment and tilt indicator for precise monitoring of positioning.

The wide footplate, adjustable and lockable in three angle positions, meets the varied needs of the patient population.

The table comes standard with a back-up battery for lowering in case of a power failure. The wire storage basket is removable.

The EZ Classic Tilt Table easily maneuvers on four 5" locking casters with straight steering. Wheel fenders protect the surface when moving through narrow doorways.

EZ Classic has a wide footplate, adjustable and lockable in three angle positions.

EZ Classic Tilt Table is operated by an electrical actuator with battery back up for lowering in case of power failure.

EZ Classic effortlessly tilts from horizontal to a 90-degree upright position and has a tilt indicator for monitoring the angle.
