

EZ Way, Inc.

"Your Total Patient Lift Solution"

ATLANTIC

The RR7-II Atlantic is designed for healthcare facilities looking for a more time efficient and labor-saving bathing solution.

Tub in the down position

RR7D - Atlantic Reclining Bathing System

The RR7-II Atlantic has a unique tilting function allowing residents with challenging conditions to recline in a contoured seat and quickly become immersed in warm water. At only 24 gallons to pre-fill the foot well, water usage and the associated costs are greatly reduced. The optional Auto-fill eliminates waiting and/or observation time when pre-filling the bathtub to a pre-set level.

The sleek exterior design of the RR7-II Atlantic will give your bathing area the look of an upscale luxury spa. Caregivers will enjoy its ease of use and the improved quality of care they can provide the resident. Featuring a full range of standard and optional features, the RR7-II Atlantic is designed to enhance the bathing experience for the resident.

The Rane Bathing and Accessibility product line provides a unique combination of style, ease of use, comfort and low cost of ownership.

The built-in disinfection system cabinet is conveniently located on the front side of the tub for easy access. The lockable cabinet provides a secure place for cleaning supplies and disinfectants.

Shower Wand included as standard.

Easy to Access Up/Down buttons to control the tilt of the tub.

The air jets on the Air Spa System feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

Easy to Use Control Panel with water temperature dial built in.

"Your Total Patient Lift Solution"

Standard Features

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Built-in Disinfection System for disinfection of the bath's external surfaces minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub fill and shower wand temperatures.
- Three Plumbing Configurations to choose from; side, front or island configuration. The island configuration allows 360° unobstructed access for the caregiver, and with no visible hook-up hoses or cords.
- Head Pillow with suction cups for comfort and head support.
- 3/4" Supply Lines constructed of stainless steel.
- 24-hour Service Department.

Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.
- Battery Back-up in case of power failures.
- Auto-Fill is a time-saving feature that enables the caregiver to fill the tub to a pre-set level (24 gallons).

Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic, low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.

Warranty: 5 years for external finishes and composite shell, 3 years for all moving and stationary parts, and lifetime on the door seal.

Certifications / Standards: A112.19.7-2012 / CSA B45.10-12 / UL 1795 / CSA C22.2 no. 218.2 / IAPMO Z124-2011 / CSA B45.5-11
