

CARIBBEAN | Side-Entry Reservoir Bathing System

EZ Way, Inc.

"Your Total Patient Lift Solution"

The RJ15 Caribbean is a freestanding tub with a reservoir feature which allows the tub to be filled quickly with simple one-touch operations.

The low threshold and wide side-entry door provides easy access for residents with various degrees of mobility and the built-in contoured seat enables the resident to sit comfortably and safely in a slightly reclined position.

The sleek exterior design of the RJ15 Caribbean will give your bathing area an upscale spa look, with spacious cabinet

storage for towels and other bathing accessories.

The built-in automatic Ozonator provides disinfection control in the reservoir tank and features a separate on-board disinfection system for the tub itself.

The Rane Bathing and Accessibility product line provides a unique combination of style, ease of use, comfort and low cost of ownership.

The built-in disinfection system cabinet is conveniently located on the front side of the tub for easy access. The lockable cabinet provides a secure place for cleaning supplies and disinfectants.

The air jets on the Air Spa System

feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

"Your Total Patient Lift Solution"

Standard Features

- Fast Fill Reservoir, featuring a separate analog thermometer, allows the tub to be filled with 50 gallons in just 75 seconds with one-touch operations. Thermostatic Mixing Valve with anti-scald protection that dispenses 20 gallons per minute for fast tub fill.
- Ozonator integrated for disinfection control in the reservoir tank with automatic operations.
- Built-in Disinfection System for disinfection of the bath's external surfaces minimizes the risk of cross-infection.
- Handheld Shower Wand with separate controls for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub fill and shower wand temperatures.
- Secondary Door Lock to prevent accidental door opening when in use.
- Storage cabinets provide extra storage for bathing solutions and accessories.
- 3/4" Supply Lines constructed of stainless steel.
- 24-hour Service Department.

Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.
- Integrated television.

Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic, low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.

Technical Specifications

Length	74 inch
Width (Tub)	33 inch
Width (Cabinet)	70.5 inch
Height (to top of Cabinet)	73.5 inch (lowest setting)
Height (to top of Door)	36.75 inch (lowest setting)
Adjustable Leveling Legs	2 inch max.
Seat Width (interior)	25 inch
Seat Height	19.25 inch (lowest setting)
Threshold Height	13 inch (lowest setting)
Transfer Device Access	7" H x 44" W
Weight Capacity (occupant)	600 lbs
Water Capacity (occupied)	52 gallons
Fill Time	1 minutes, 15 seconds
Drain Time	2 minutes, 30 seconds
