

CHESAPEAKE

Built-In Bathing System

EZ Way, Inc.

*"Your Total Patient
Lift Solution"*

The RT4 Chesapeake is designed to be installed in an alcove for a more residential appearance.

The low threshold and wide side-entry door allows easy access for both ambulatory residents or those who need assistance. The built-in contoured seat allows the resident to sit comfortably and safely in a slightly reclined position. The easy-to-use wall-mounted modular control panel can be positioned for convenient operation by either the resident or caregiver.

Caregivers will enjoy the RT4 Chesapeake for its ease of use and the improved quality of care they can provide the resident. Featuring a full range of standard and optional features, the RT4 Chesapeake is designed to enhance the bathing experience for the resident and create the atmosphere of a luxury spa.

The Rane Bathing & Accessibility product line provides a unique combination of style, ease of use, comfort, and low cost of ownership.

The built-in disinfection system cabinet is conveniently located on the front side of the tub for easy access. The lockable cabinet provides a secure place for cleaning supplies and disinfectants.

The air jets on the Air Spa System

feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

"Your Total Patient Lift Solution"

Standard Features

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Built-in Disinfection System for disinfection of the bath's external surfaces minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub-fill and showerwand temperatures.
- Lap and Shoulder Harness for resident safety.
- Secondary Door Lock to prevent accidental door opening when in use.
- 3/4" Supply Lines constructed of stainless steel.
- 24-hour Service Department.

Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.

Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic, low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.

Technical Specifications

Length	59.75 inch
Width	32 inch
Height	38 inch
Seat Height (from Floor)	21 inch
Seat Height (Interior)	21 inch
Seat Height	19.25 inch (lowest setting)
Threshold Height	13 inch
Transfer Device Access	6" H x 41" W
Weight Capacity (occupant)	400 lbs
Water Capacity (occupied)	48 gallons
Fill Time	3 minutes, 12 seconds
Drain Time	1 minutes, 58 seconds
