HEALTHCARE BATHING SYSTEMS

RK12 Winnipeg

RG9 Victoria

RL9 Bath Lift

RS8 Geneva

RJ15 Caribbean

RR7 Atlantic

RB14-IM Caspian

Bathing promotes a feeling of well-being and is mentally and physically beneficial.

Rane bathing systems are designed to be functional and affordable, yet will give your bathing area an upscale look. The numerous features and options available with Rane systems will enhance the bathing experience for the resident.

The Rane Bathing and Accessibility product line provides a unique combination of style, ease of use, comfort, and low cost of ownership.

- Made in the USA.
- Industry Leading Warranty
 - 5 years for external finishes and composite shell
 - 3 years on all moving and stationary parts
 - Lifetime warranty on the door seal
- Standard Features include an easy-to-use control panel, thermostatic mixing valve, handheld shower wand, built-in disinfection system, analog thermometer, and 3/4" stainless steel supply lines.
- Optional Features includes CleanRane™ Air Spa System, Battery Backup, Autofill, and gelcoat color choices of Cool Gray or Blue Sky.
- Nationwide Distribution and 24-hour Service Department.

All Rane bathing systems feature an **easy-to-use control panel**, which includes a thermostatic mixing valve, tub-fill valve, shower valve, analog thermometer, and a CleanRane™ Air Spa control button (if equipped).

The air jets on the Air Spa System feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

Our Healthcare Facility Bathing Systems are also available in the optional finishes of **Cool Gray or Sky Blue finishes.**

"Your Total Patient Lift Solution"

RJ15 Caribbean Reservoir Bathing System

- Freestanding tub with reservoir feature allowing the tub to be quickly filled by a simple one-touch operation.
- Ozonator integrated for disinfection control in the reservoir tank with automatic operations.
- Storage cabinets provide extra storage for bathing solutions and accessories.
- The low threshold and wide side-entry door allows easy access for residents with various degrees of mobility.

RR7 Atlantic Reclining Bathing System

- Unique tilting function allows residents with challenging conditions to recline in a contoured seat and become immersed in warm water.
- At only 24 gallons to pre-fill the footwell, water usage and the associated costs are greatly reduced.
- Three plumbing configurations to choose from: front, side, or island.
- Optional AutoFill eliminates waiting and/or observation time by pre-filling the bathtub to a preset level.

RG9 Victoria Side-Entry Bathing System

- Freestanding tub that allows the caregiver 360° unobstructed access to the resident.
- Low threshold and wide side-entry door allows easy access for residents with various degrees of mobility.
- Specifically designed for use with the RL9 Bath Lift to provide seamless transfers from bed to bath in a comfortable, safe seated position

RL9 Bath Lift

- Designed for use with the RG9 Victoria and the RJ15 Caribbean.
- Heavy-duty steel powder-coated frame provides both strength and durability.
- Easy to maneuver due to the 4 high-quality twin castors.
- Armrests are designed for resident safety and are easily moved upward for transfers or access during bathing.

RS8 Geneva Recumbent Bathing System

- Designed to bathe highly dependent residents safely and comfortably. Compatible with a wide range of transport and lifting devices.
- Key-hole shape enhances patient comfort with extra room for the shoulders and arms, while allowing the caregiver closer and greater access to bathe the resident.
- Optional height adjustable model is raised or lowered at the touch of a button allowing the caregiver to work at the proper height and eliminate back strain.
- The optional Auto-fill eliminates waiting and/or observation time by pre-filling the bathtub to a pre-set level.

RK12 Winnipeg Freestanding Side-Entry Bathing System

- Optional AutoFill eliminates waiting and/or observation time by pre-filling the bathtub to a pre-set level.
- Low threshold and wide side-entry door allows easy access for residents with various degrees of mobility.
- Built-in contoured seat allows the resident to sit comfortably and safely in a slightly reclined position.

RB14-IM Caspian Bariatric Bathing System

- Low threshold side-entry door allows easy access for larger residents with various degrees of mobility.
- The extra-wide built-in contoured seat allows the larger resident to sit comfortably and safely in a slightly reclined position.
- The RB14-IM Caspian is designed to be installed against a wall, allowing the caregiver access to the resident from 3 sides.
