

EZ Way, Inc.

"Your Total Patient Lift Solution"

EZ Transport Chair by Harris Medical

A unique multi-purpose stretcher, exam table, and transport chair reducing patient transfers and transport costs.

RH3500B - EZ Transport Chair- Bariatric

BENEFITS

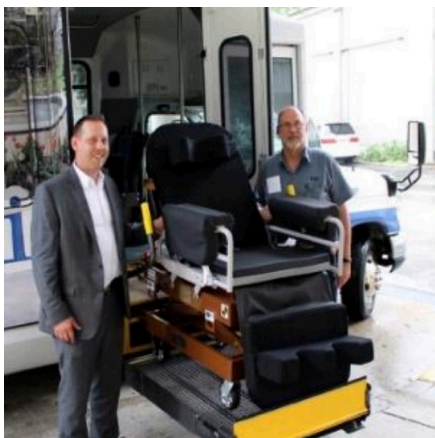

- **Multi-purpose** - Used as both a transport chair and exam table/stretcher/chair.
- **Safe** - RESNA (Rehabilitation Engineering & Assistive Technology Society of North America) WC19 approved for vehicle use.
- **Cost Effective** - Eliminates the need for costly non-emergency ambulance transports. Average annual savings of \$70,000*.
- **Comfort** - No need for moving the resident from the chair. They can stay in the chair for transport, dialysis, doctor's exam, dental procedure, etc.
- **Aluminium frame** is both strong and lightweight to allow chair to be easily maneuvered.

FEATURES

- Converts from chair to exam table 30" high.
- Comfortable, articulating gel seat.
- Washable seat cover.
- 20 degrees of Trendelenberg positioning.
- Gas spring assisted adjusting. No batteries required.
- Removable footrest, headrest, arm rests.

OPTIONS

- Retractable IV Pole
- Oxygen Tank Holder ("D" Size)

EZ Transportation

Whether using a Bus or Minivan, the EZ Transport Chair is the ideal solution for non emergency transfers.

Retractable IV Pole (Optional Accessory)

* Per manufacturer's study based on one dialysis patient averaging three trips per week.
