The EZ Way Safe Patient Handling Evaluation & What It Can Do For You!

EZ Way, Inc.
"Your Total Patient
Lift Solution"

EZ Way Safe Patient Handling Evaluation process and outcomes:

1. Our team will work with on-site staff to conduct a comprehensive review to better understand your current patient transferring practices, equipment used, and specific needs.
2. The EZ Way team will analyze the data gathered from the evaluation and present you with a customized report providing a snapshot of your current safe patient handling practices, equipment in use, and any recommendations to improve your safe patient handling program.

The report will be accompanied by the following data to help you improve your program:

I. Program Explanation

- Purpose
- What is a No-Lift Program?
- Benefits
- On-line Resources
- Equipment Descriptions

II. Sample No-Lift Template Components

III. Sample Policy Statement

IV. Follow-Up Patient Handling Practices Staff Survey

V. Evaluation Report and Recommendations

The benefits of improving safe patient handling practices include:

- Reduced workers' compensation claims and related expenses/premiums
- Fewer transfer related injuries to staff and patients
- Reduced lost work days
- Reduced payroll costs to fill missed shifts or hire temporary staff
- Improvements to quality of life for both patients and caregivers
- Improved ambulation rates, improved skin care, transfer capability, patient/family security, patient dignity, caregiver morale, and decreased nursing staff turnover rate

EZ Way has developed this comprehensive evaluation to help you improve your safe patient handling program and the quality of life for patient and caregiver; all at no extra cost.

Call EZ Way at 800-627-8940 to schedule a FREE evaluation.
