

3000-V21 Battery Operated Shower Trolleys

EZ Way, Inc. Multi-tasking shower trolley with endless application possibilities

The 3000-V21 battery-powered, foot-operated shower trolley is unique with its side mounted column allowing the trolley stretcher to overlap the bed further for a safe and easy patient transfer. It has a 440 lb. (200 kg) patient weight capacity.

The trolley drains at both ends allowing the person to be positioned in either direction, an invaluable feature for the caregiver.

The 3000-V21 is available in three models with lengths of 63 in., 75 in., or 83 in. All models are 25.2 in. wide.

All models are available with an on-board battery solution or with an optional removable rechargeable battery.

The 3000-V21 height adjustable Shower Trolley is a great solution to prevent back injuries and to minimize static load and offers a safe and ergonomic working environment for the caregiver.

Registered at Medical Products Agency, Sweden, as a MD Class 1 product, MDR 2017/745.

TR reserves the right to make design changes and/or improvements without notice.
