

WALL MOUNTED DISINFECTATION CABINET

10' coiled hose allows the staff to disinfectant large or hard-to-reach areas.

The lockable and spacious cabinet can hold multiple bottles of disinfectant, bathing solutions, or cleaning supplies.

The Wall-Mounted Disinfection Cabinet is a highly efficient system that simplifies disinfection and greatly reduces the possibility of cross-contamination in your bathing and/or showering areas. A majority of long term care residents are incontinent requiring all surfaces and equipment to be disinfected after each resident bathing and/or showering. The unique mixing valve uses the exact dilution ratio of disinfectant solution for optimal performance against a wide variety of microorganisms and greatly reduces bacterial contamination. The lockable cabinet provides a secure place for disinfectants and cleaning supplies.
