

EZ Way, Inc.

EZ Way Deluxe Sling

The Deluxe Sling is a full body lifting sling with padded legs for extra comfort. It is our most popular full body sling, and is comfortable, durable, and strong.

Rated to 1,000 lbs., double-box stitched for added safety and durability, 4-loop connection design, and color-coded for sizing*. Available in Washable, Wipeable, Mesh, Spacer Mesh, or Antimicrobial materials along with several options including head support, belted, and fleece lined.

**Deluxe Sling
in Wipeable material**

**Deluxe Sling with Head Support
in Washable Polyester**

Common Applications & Features:

- For standard transfers
- Puts hips in natural hip deflection
- Able to apply and remove in chair
- Quilted, padded legs for comfort
- Multiple loops to place in a seated, reclined, or supine position

Options:

- Head Support
- Belted
- Fleece Lined

TYPES OF FABRIC

Spacer

A three-layer fabric that releases moisture, allows air flow, and dissipates heat. It provides four-way stretch, naturally ventilating properties that take moisture away from the skin, and soft, cushioning characteristics to reduce force. Shown in studies to be the most effective in reducing peak pressures, and more likely to reduce the risk of pressure ulcer development if left under the patient. This fabric is available in white or black.

Wipeable

Our wipeable fabric is made with Herculite Sure-Check material that was designed for healthcare for safe, comfortable, long-lasting use. It is stain resistant, flame resistant, fluid and moisture resistant, and has an antimicrobial protection system which lasts for the life of the fabric. It has been tested and approved with most standard germicidal cleaners.

Mesh

Our mesh fabric wicks away moisture, and allows air flow making it ideal for bathing purposes. It is an excellent choice for people with wounds since it allows air flow to help with faster healing. This fabric is available in white or black.

Washable

This comfortable fabric is used with most of our accessory styles and made of durable polyester fabric. It is designed to be laundered and reused until it exhibits signs of wear.

Antimicrobial

Our antimicrobial sling fabric was designed for healthcare. It is made of DAF Tricot Polyester fabric with an antimicrobial treatment which resists bacterial growth, mildew, rot, and provides dust mite protection. The fabric is tested using the AATCC 147-2011 test method for antibacterial activity of textile materials.

* Slings using the antimicrobial and wipeable fabric do not have color coded sizing. Visit our website www.ezlifts.com for a complete list of sizes, fabrics, and options.
