

CASPIAN

Bariatric Bathing System

EZ Way, Inc.

*"Your Total Patient
Lift Solution"*

The RB14-IM Caspian is designed specifically for care facilities that need to bathe residents of size.

The low threshold side-entry door allows easy access for larger residents with various degrees of mobility. The extra-wide built-in contoured seat allows the larger resident to sit comfortably and safely in a slightly reclined position. The RB14-IM Caspian is designed to be installed against a wall, allowing the caregiver access to the resident from 3 sides.

Caregivers will enjoy the RB14-IM Caspian for its ease of use and the improved quality of care they can provide for their larger residents. Featuring a full range of standard and optional features, the RB14-IM Caspian is designed to enhance the bathing experience for the resident.

The Rane Bathing and Accessibility product line provides a unique combination of style, ease of use, comfort and low cost of ownership.

The built-in disinfection system cabinet is conveniently located on the front side of the tub for easy access. The lockable cabinet provides a secure place for cleaning supplies and disinfectants.

The air jets on the Air Spa System feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

"Your Total Patient Lift Solution"

Standard Features

- Thermostatic Mixing Valve with anti-scald protection that dispenses.
- 15 gallons per minute for fast tub fill.
- Built-in Disinfection System for disinfection of the bath's external surfaces minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub-fill and shower wand temperatures.
- Lap and Shoulder Harness for resident safety.
- Secondary Door Lock to prevent accidental door opening when in use.
- 3/4" Supply Lines constructed of stainless steel.
- 24-hour Service Department.

Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.

Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic, low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.

Warranty: 5 years for external finishes and composite shell, 3 years for all moving and stationary parts, and lifetime on the door seal.
Certifications / Standards: A112.19.7-2012 / CSA B45.10-12 / UL 1795 / CSA C22.2 no. 218.2 / IAPMO Z124-2011 / CSA B45.5-11

Technical Specifications

Length	60 inch
Width	33.5 inch
Height (to top of console)	50 inch (lowest setting)
Height (to top of door)	36.5 inch (lowest setting)
Adjustable Leveling Legs	2 inch max.
Seat Width (interior)	28 inch
Seat Height	21 inch (lowest setting)
Threshold Height	13 inch (lowest setting)
Transfer Device Access	7" H x 41" W
Weight Capacity (occupant)	600 lbs
Water Capacity (maximum)	52 gallons
Fill Time	3 minutes, 28 seconds
Drain Time	2 minutes, 10 seconds
Water Supply Inlet	3/4 inch diameter
Drain Size	1.5 inch
Electrical Supply	115V AC; 60Hz; 15 amp
Door Swing	Outward
