

EZ Way Single-Patient Use Accessories

EZ Way, Inc.

"Your Total Safe Patient Handling Partner"

Our single-patient use accessories are an effective tool in helping with infection control. They are designed for use with a single-patient and can be reused on the same patient until they are discharged or the accessory becomes soiled. Available in a variety of styles.

Common Applications:

- Single-patient accessories are breathable and made from a durable yet comfortable polyester material.
- Only for use as a single-patient accessory. Product should not be recycled or redistributed. Single-patient accessories are not designed for long-term use.
- Do not launder. If the accessory is laundered, it should be discarded.
- Operator must inspect accessory prior to each use. The accessory should be replaced at any sign of wear, tear, or soiling.
- Weight load must only be used to hold the amount of weight dictated by the capacity of the lift or stand and the accessory. Equipment and accessory should be used by trained personnel in accordance with operation manual, video, and training checklist to avoid injury.
