FREE FACILITY EVALUATION

We have developed a program to provide a comprehensive approach to evaluate your patient handling equipment needs and help you implement a safe patient handling solution...**AT NO COST TO YOU!**

SAFETY FEATURES

There are several safety features on the equipment, such as emergency stop buttons and protective coverings. All of these features are tested in-house and must pass our stringent safety standards.

COMPLETE LINE OF BARIATRIC EQUIPMENT

We offer a complete line of equipment in capacities of up to 800 lbs. on the EZ Way stand, 1000 lbs. on the EZ Lift, a Bariatric AirPal Transfer System with no weight limit, 1000 lb. capacity EZ Ceiling Lift, 500 lb. capacity EZ Out (vehicle extraction) and 650 lb. capacity portable EZ Ceiling Lift.

TRANSFERRING PRODUCTS

Whether it's a lateral transfer or bed repositioning you need help with, EZ Way offers a full solution including EZ Lift Accessories, Slide Sheets, Repositioning / Turning Sheet and the AirPal air assist system.

EZ WAY, INC. IS A U.S.-BASED COMPANY

EZ Way is a family-owned company with manufacturing operations headquartered in Clarinda, Iowa. Since 1994 EZ Way has had one mission: develop, market and service the highest quality and most functional patient transferring equipment in the industry. In-house production of most products enables us to offer custom orders on slings.

THE EZ WAY FACILITY EVALUATION

& WHAT IT CAN DO FOR YOU!

What is a “no-lift” program? A no-lift program is a comprehensive, on-going program to protect patients, residents, and staff from injuries caused by manually transferring, lifting, and repositioning patients and residents. The goal of a no-lift program is to drastically reduce, if not eliminate, the number of manual lifts and transfers performed in a facility by instituting the use of patient transferring equipment.

“No-Lift” benefits include: Reduced workers’ compensation claims and related expenses/premiums, fewer transfer related injuries to staff and patients, reduced lost work days, reduced payroll to fill missed shifts or hire temporary staff, improvements regarding quality of life for patients and caregivers, improved ambulation rates, improved skin care, transfer capability, patient/family security, patient dignity, caregiver morale, and decreased nursing staff turnover rates.

Here’s what the EZ Way Facility Evaluation will do for you:

- 1) Our local sales representative will conduct a thorough evaluation of your facility to better understand your current patient transferring practices and specific needs.
- 2) We will conduct an on-site equipment demonstration and offer you free product trials to provide hands-on experience.
- 3) EZ Way staff will analyze the data gathered from the Facility Evaluation and present you with a customized equipment recommendation. This information will be accompanied by the following data to help you develop a no-lift or low-lift program that fits your needs:

I. Program Explanation

- Purpose
- What is a No-Lift Program?
- Benefits
- On-line Resources
- Equipment Descriptions
- SAIF Study, Results Seen with Program Implementation
- EZ Way Delivery, Training, Service, and Warranty
- How It’s Done

II. Sample No-Lift Template Components

III. Sample Policy Statement

IV. Follow-Up Patient Handling Practices Staff Survey

V. Assessment Notes and Equipment Recommendations

EZ Way has developed this program to provide a comprehensive approach to help you implement a safe patient handling solution; all at no extra cost.

Please call EZ Way at 800-627-8940 to schedule a FREE evaluation.

We look forward to working with you!
